

B130

AQUA SEAL FABRIC PROTECTOR

LABEL INSTRUCTIONS

Product Description & Directions for Use:

A water-based, fluorochemical soil and stain repellent treatment for synthetic fabrics including nylon, polyester, acrylic and their blends with natural cellulosic fibres.

For professional and industrial use only.

Always refer to Safety Data Sheet before use.

Aqua Seal Fabric Protector is ready-to-use. DO NOT dilute with water.

Before proceeding with application, always pre-test an inconspicuous area of the fabric with Aqua Seal Fabric Protector and allow to dry. Check for any change in colour, shade or texture of the fabric. Do not apply to water sensitive fabrics.

Ensure fabric is clean and free of any shampoo or detergent residue. It is recommended that newly cleaned fabric is finally rinsed with B109 Fibre & Fabric Rinse according to label directions. Aqua Seal Fabric Protector must be the last treatment applied to the fabric and can be applied to dry fabric or damp fabric after extraction cleaning and rinsing. Apply Aqua Seal Fabric Protector evenly by fabric protector spray applicator with fan nozzle. Do not apply Aqua Seal Fabric Protector by trigger sprayer. **Important - Do not aerosolise or produce fine spray mists or respirable particles.** Coverage should be approx. 1 litre per 15m² of fabric. Lightly brush protector into fabric with natural fibre upholstery brush and leave fabric to dry completely before use.

Do not allow product to freeze. Flush equipment with water after use.

Wipe overspray immediately from wood, glass, metal and other surfaces.

- Water-based soil & stain protector for wet-cleanable upholstery fabrics.
- Provides a durable stain-resistant coating which also makes fabrics easier to clean.
- Apply by fabric protector applicator.
- White liquid.
- Coverage approx. 75m² per 5 litres.
- *Ready-to-use*

pH: 4
